

Thank you for viewing Blackmon Road Middle School's Web site. We hope that you find our site both interesting and informative. We are working hard to add new features and update the site regularly with information that the entire Blackmon community will find helpful.

Academic excellence at Blackmon Road Middle School is founded on a partnership between students, team members, and parents. As a community of learners, we work to ensure the intellectual, ethical, physical, social and emotional growth of each student.

Our team members strive to meet the unique developmental needs of young adolescents in a positive school climate. Students and teachers are organized into grade level teams, which help create small learning environments where supportive, mutually respectful relationships flourish. Connection course offerings during the day and after school activities are provided to meet the varied interests, boundless energy, and curiosity of our students. High expectations are held for all students to meet rigorous academic standards and become lifelong learners.

Blackmon Road is a great place for students to learn. Students are understood, challenged and cared for. We are committed to ensuring that students achieve their academic and personal potential. Students are encouraged to demonstrate a passion for learning in a nurturing environment where unique talents and backgrounds of individuals are valued and respected.
